## Customer Reviews

This book gives measured drawings and building instructions for five different buildings: a cider barn, a forge, the "Swan Inn", a really large Georgian house and a water mill. These are not (with the exception of the Georgian house) your "typical dollhouse". Still, the buildings are charming, the directions are complete and you might be TIRED of typical dollhouses. There are also many color photos of finished interiors, and a last chapter devoted to the workshop which covers safety, tools and techniques.

This book has tons of great pictures, easy to follow instructions and an index of suppliers. It is great for ideas for your dollhouse and it is easy to build one from the book.....

I found the dream dollhouse with very clear and detailed directions in this book. This is the type of

book makes it possible to DIY and not be dependent of a Kit model to make a very fine dollhouse. I am ready to begin!

Book is full of ideas that I haven't seen anywhere else.
